Notes
28 September 2012, 8:00am
FNDH 2147

- Objectives: 1) Decide how to use collected data to improve the GS program;
 2) Decide what further data may need to be collected.

Business

1) *TaskStream assessment data*

Trantham will export data from TaskStream and look at ways to analyze it that will help benefit the quality of the GS program.

2) *CAAP data*

After administration of CAAP in 2013/2014, we'll link the results of freshmen who took CAAP in 2010 with their results as seniors in 2013/2014 and look at value added.

3) *WEAVEonline assessment questions*

The council helped formulate answers to the questions about assessing the GS program that are asked in WEAVEonline. Several of the questions cannot be answered until after we evaluate TaskStream data. The questions will be revisited later on.

4) *Student portal survey*

Kruse and Moore will look at data from past student surveys about the portal, and will make a draft of a simpler student survey for use on TaskStream.
