The University of Nebraska is an affirmative action/equal opportunity institution. Individuals needing accommodation under ADA should contact the ADA Coordinator at 308.865.8655 or the Events Coordinator. Designed and produced by UNK Creative Services, 308.865.8134.
CONSTRUCTION MANAGEMENT
- Student Focused Faculty
- Practical Laboratory Activities
- Technology Advanced Student Computer Labs
- Required 12 week Summer Internship
- Industry Involvement and Networking
- Active Professional NAHB and AGC Student Organizations
- Construction Management Partnership Program
- Program is Accredited by the Association of Technology Management and Applied Engineering (ATMAE)

REAL WORLD EXPERIENCES
Management based internships are required for all Construction Management students. Internships provide the opportunity to apply skills learned in the classroom and laboratories and experience the industry first hand. Permanent job offers are often the result.

STUDENT INVOLVEMENT
Students gain additional educational experiences through active involvement in the Construction Management Organization (CMO). Student members enjoy all the benefits of the Associated General Contractors (AGC) and the National Association of Home Builders (NAHB).

INDUSTRY CONNECTIONS
Students have the opportunity to meet industry professionals through a program sponsored career fair held exclusively for Construction Management students. Company showcases, community service projects and trips to state and national conferences are all opportunities to develop networking connections.

ACTIVE LEARNING
The UNK Construction Management Program provides a strong technical and managerial foundation for all sectors of the construction industry by focusing intently on communication, organization, and leadership. Students have participated in unique student exchanges to Germany and Mexico and have built over 15 homes for Habitat for Humanity.

CAREER OPPORTUNITIES
The Construction Management Program at UNK prepares students for employment in a variety of construction related careers. Typical career goals include:
- Job Superintendent
- Project Manager
- Contractor
- Estimator
- Scheduler
- Safety Engineer
- Subcontractor
- Field Supervisor

WHY CHOOSE UNK?
- Small class sizes, personal service and attention from faculty and staff.
- Well equipped laboratory providing a superior learning environment.
- Ample opportunities to develop a sense of belonging to the UNK Construction program and campus community.
- “Real World” experiences contribute to learning and networking opportunities.
- Financial aid and scholarships are available through campus and private sector sources.

WHAT OUR GRADUATES SAY
“ When finding a career after graduation, I feel like I was granted a great advantage from those who went to other universities.”

“Students enjoy an open relationship with program faculty members who are always willing to help.”

“The classroom atmosphere was relaxed making it easy to learn.”
