Experiential Learning/Internship

Erin Bogard, Interior Design major, advisor Dr. Tawnya Woodward

Erin Bogard, senior in Interior Design with a minor in Business Administration, completed a summer internship at Andrea Schumacher Interiors in Denver, Colorado. This firm specializes in residential design in new construction or remodeled homes. Some of Erin’s responsibilities included visiting showrooms in the Denver Design District almost weekly to select products or order materials, pricing projects, and using various software such as Studio Web Ware and Photoshop. Erin’s future goal is to own her own residential design firm, and she stated her internship allowed her to understand how a similar small studio is run.

Erin said, “I had a good experience learning about the workings and running of a small interior design firm, and how to work alongside other designers and with clients. I found the firm online while searching for interior design firms in the Denver, Colorado area. After graduation in May I hope to work for an interior design or architect firm, working primarily in residential design. My long term goal is to own my own interior design firm.”

Some ideas for you to think about...

- students sharing some projects they work on...
- what makes a good business plan...
- what are some common mistakes small business owners make...
- some people may think they don’t need to go to school to start a business—why should they?
- Marketing vs promotion... (some people think marketing is just promotion/advertising... how does someone come up with marketing strategies
- How can a business work with UNK Students? (I think we have done this one before—it was a good one)
- How business students benefit the community of Kearney
- With the Technology side... anything you can show or demonstrate?—any projects students can bring on and show
- A preview of a few tips that you teach students that out audience can take away from (remember our audience is a lot of parents and grandparents... let’s get their attention in a way that may encourage them to tell their kids what is available to them)
- Personal stories, pictures, videos...

The kicker to all of this is – we need to know what the plan is a week in advance. (names, titles, and outline) There are new FCC guidelines, so we need to have an outline of what you want viewers to know so we can put it in closed captioning. Just the basics is fine. We will also use this to post information to our website—so it does benefit everyone involved.
What I need one week before the interview:

- The names of who will all be on set: first, last and title --if you add more people be sure to tell us in advance, that way we know we have the room and mics available that you need.
- Information you would want viewers to know: if it’s an event... the who, what where etc..., and a link or phone number or where you want viewers to go for more information. A press release works too.
- Some people like to send me an outline of what they want to discuss... or send me 3-4 questions you want me to ask... I want you to be comfortable—so send me what works for you. I will help you along in the interview with the information you give me.

- Time will seem to fly by, so if we don’t get to everything... remember to send me information you want on our website www.nebraska.tv
