DegreeinNetworking.com

The University of Nebraska is an affirmative action/equal opportunity institution. Individuals needing accommodation under ADA should contact the ADA Coordinator at 308.865.8655 or the Events Coordinator. Designed and produced by UNK Creative Services; 308.865.8134.
WHAT IS INT?
Information Networking and Telecommunications is a technology field that specializes in connecting all forms of devices to the Internet. Think about the Internet. INT professionals in networking/telecom positions make the Internet work.

INFORMATION NETWORKING & TELECOMMUNICATIONS (INT)
• Friendly atmosphere with student-focused faculty
• Hands-on networking lab
• 100% career placement for dedicated students
• Work towards a respected certification
• Active student organization (INTO)
• Real-world experiences through internships
• Excellent starting salaries with fantastic future growth predicted
• Accredited program (ATMAE)

CHARACTERISTICS OF INT STUDENTS:
• Have a desire to know how things work
• Fix computer issues for your friends and family
• Problem-solve through gaming or taking equipment apart
• Plug things together on a frequent basis (your friend’s surround sound, your dad’s small office network)
• Like the idea of being involved in a growing, exciting technology field
• Practical, down-to-earth and realistic

WHAT ARE THE CAREER OPPORTUNITIES?
Since the Internet is highly needed and used by all companies, INT graduates are in demand. INT graduates help provide a service on which everyone depends.

WHO CAN I BE?
Our graduates have careers in the following:

• Network analyst/engineer:
  Manage all of the equipment involved with a company’s network (routers, switches)

• Telecom analyst/engineer:
  Manage all of the equipment involved with a company’s phone network (phone switch, VoIP)

• Technical consultant:
  Work with other companies to provide plans for security, telecom and network equipment to meet technical regulations (i.e. state, university or health care systems)

FROM THE MOUTHS OF OUR STUDENTS
“I like that I get to create something new that people depend on. I am providing services that help people do their daily jobs.”
Emily Ndugwa – INT student

“I love the flexibility of being able to work on a number of projects in various capacities from systems administration to virtualization to networking to systems engineering.”
Dustin Boyd – Computer Systems Analyst – Lockheed Martin

“INT at UNK has given me the skills to be an effective contributor to my organization, even with aspects of IT that are outside of data networking—and my employer values that.”
Zach Kirschner – Network Analyst II – Principal Financial Group
