InternNE Program Grants:

The Intern Nebraska (InternNE) program connects Nebraska's college students to businesses across the state. The program provides a 40% match, up to \$3,500 per internship, for eligible businesses hiring eligible student interns (businesses in distressed areas may receive a 60% match up to \$5,000). A business may apply for funding for up to 10 interns per year, with a maximum of 5 interns per company location, per year. Up to \$3 million is available for FY2012 and 2013 to support businesses in hiring interns. Funding is provided through reimbursements to businesses.

Eligible businesses are primarily in Manufacturing, Research & Development, Distribution, Transportation, Storage & Warehousing, Data Processing, Telecommunications, Insurance and Financial Services or the company headquarters.

Eligible students must be enrolled full-time in a Nebraska postsecondary two-year or four-year college or university and have completed a minimum of one-half of the total credit hours required for a bachelor or associate degree, per the institution's criteria. A student may also be a resident of Nebraska, attending a four-year college or university outside of Nebraska.

Eligible internships are quality positions that are newly created (cannot have existed during prior year). The internship must pay minimum wage and be at least 200 hours in a 12 week period.

As of February 1, 2012:

- 157 companies have applied for InternNE program grants, 121 companies have been approved
- 346 positions have been approved, 85 have been filled paying an average of \$11.47/hour
- \$1,571,000 has been allocated of the \$3 million available FY2012 and 2013
