**Volunteers Around the World**
Are you going into a health-related field? Do you love to travel and have a desire to serve others? Do you want to gain valuable, resume-building experience while learning necessary medical skills? If this describes you, then look no further! Members of VAW will have the opportunity to travel to the Dominican Republic, Guatemala, Peru, Panama, Cambodia, or Vietnam with their fellow UNK students during summer 2019 to set up free medical clinics. At these clinics, students will have the opportunity to shadow doctors, manage a pharmacy and distribute medications, perform triage and take vitals. In addition, there will be plenty of time to explore our host country!
Throughout the school year, members of VAW will attend monthly or bi-monthly meetings where we will learn the basic skills needed to successfully host these clinics. There will be numerous speakers and wonderful educational opportunities. This means that you can choose not to travel with the group and still be a regular member and attend meetings so you can learn these skills as well. There will also be lots of fundraising opportunities during the year to help cover program and travel costs for members that will be going out of the country.
