

\$16,500 Fellowship in Biomedical Research The INBRE Scholar Program

ABOUT THE PROGRAM:

INBRE is a scholarship program that selects highly qualified undergraduates for an unparalleled opportunity to pursue original biomedical research within multiple academic laboratories in Nebraska. It is geared to those aspiring to pursue advanced education in biomedical research (i.e., a Ph.D. degree). The program <u>requires a two-year commitment</u>. Usually, 3 new students will be selected as INBRE Scholars each year. For general information, visit the website <u>www.unmc.edu/inbre</u>.

WHO CAN APPLY?

Any student, generally in their second year, who will not graduate until May 2026 is eligible. Students pursuing a major in Science, Technology, Engineering or Math (STEM) are ideally suited for this program. This program is intended for students preparing themselves for educational or employment opportunities in a field of biomedical/STEM research after completion of their undergraduate degree.

PROGRAM BENEFITS:

- \$4,000 for the first summer conducting research at a major research institution in Nebraska; \$3,000 for each academic year of participation; and \$4,500 for the second summer for research conducted at the Scholar's home institution.
- Housing support for the first and second summers. Housing options are available to Scholars during the first summer, whereas second year Scholars receive a \$1,000 housing allowance.

PROGRAM REQUIREMENTS:

- Complete a 10-week Research Foundations Summer Training Workshop (in 2024, starting May and ending August) in biomedical research within a laboratory at University of Nebraska Medical Center (UNMC), Univ of Neb-Lincoln (UNL) or Creighton Univ Medical Center (CUMC) during the 1st summer in the program. Scholars must devote full time effort (40 hours per week). Outside employment and enrollment in summer courses are NOT allowed.
- **Present research results** during both junior and senior years at the annual INBRE meeting in August and the Nebraska Academy of Science meeting in April. Presenting at additional local, regional and national venues is also strongly encouraged if resources and circumstances allow.

Note: This program involves a significant time commitment that likely would preclude INBRE Scholars from working at another job. Considering this expectation, the NE-INBRE program therefore provides the generous stipends described above to help address Scholars' financial obligations. For further info, contact Dr. Kristy Kounovsky-Shafer, kounovskykl@unk.edu.

INBRE Scholar Application

A complete application packet for the INBRE Scholar program must be submitted by **Friday, November 10th by noon CST**. Submission address: INBRE Fellowship Selection Committee, Attn: Dr. Kristy Kounovsky-Shafer, Dr. Kristy Kounovsky-Shafer (BHS 411E, mailbox in BHS 415, or kounovskykl@unk.edu)

A complete application consists of the following items, submitted together as one document in the following order:

- Application form (two pages, see attached)
 - Statement of Interest: up to 2 pages, double-spaced, 11 pt font. Address each of the following questions:
 - Why are you interested in biomedical research? Indicate where you first heard about the INBRE program.
 - What are your future educational and career goals following graduation from UNK?
 - Do you have any research experience? How will this program benefit your career goals?
 - Which UNK lab(s) you are most interested in working within (see list above) and why? Note: You are strongly encouraged to speak to former or current INBRE Scholars. Insights gained from such conversation(s) regarding the INBRE program will likely strengthen your Statement of Interest.
- Copy of most recent university transcript
- Resume/CV

Also: Arrange for one letter of recommendation to be directly sent to Dr. Kristy Kounovsky-Shafer. The letter should address the applicant's scientific potential, academic prowess, research experience, and character. Email or paper format is acceptable.

Students selected for interviews will be contacted by the INBRE campus coordinator, Dr. Kristy Kounovsky-Shafer.

I certify that the information in this application is correct, and I authorize INBRE faculty to view my academic records. If selected as an INBRE Scholar, I **agree** to the following conditions for continuance in the program:

- 1. I will complete the ten-week Research Foundations Workshop held on the campuses of UNMC, UNL and CUMC during my first summer in the program. This includes attending orientation day as well as regular attendance at the INBRE Seminar Series every Monday. <u>I realize that the Research Foundations Workshop is considered a full-time commitment to the INBRE program, and additional activities such as taking summer courses or holding part-time jobs during the summer are not appropriate.</u>
- 2. I understand and agree that if I do not complete the full ten-week summer program, I am responsible for repayment of the total scholarship received, minus the pro-rated amount for the weeks that I did participate. Repayment is due within 30 days of leaving the program unless arrangements are agreed upon by UNMC.
- 3. I will maintain participation in a research project on my home/transfer campus during the next two academic years and my second summer in the program. During the academic year, my part-time involvement will include working a minimum of ten hours per week on my research project. During my second summer in the program, my full-time commitment will include working the equivalent of 40 hours per week for 10 weeks on my research project.
- 4. I will attend and present my research results at the annual Nebraska Academy of Sciences Meeting held in April and the annual NE-INBRE Conference held in August. I understand that attendance at the entire annual NE-INBRE conference and participation in all sessions is required.
- 5. I will submit yearly progress reports to my faculty mentor no later than May 1st of each year.
- 6. I will maintain a minimum GPA of 3.0.
- 7. I will attend the statewide journal club that meets twice per semester.
- 8. I will attend the INBRE scholar's book club and full program meetings on UNK's campus each week in the Spring and Fall semester.
- 9. I will try my best to be an exemplary representative of the NE-INBRE program, which is known and respected throughout the state of Nebraska. I will maintain a high level of professional conduct that includes displaying proper respect for my mentor, other faculty, staff and students at the academic institutions participating in the INBRE program, as well as proper attitude, behavior, dress and adherence to lab safety rules.

If you are selected as an INBRE scholar, you will have to sign the following UNK - INBRE Contract

What is expected from INBRE scholars? INBRE scholars will:

- work with your faculty mentor fall & spring semesters for a minimum of 10 hours per week & 2nd summer for a minimum of 20 hours per week. INBRE scholars are not expected to work in the laboratory in the evenings or weekends alone, unless deemed appropriate by your mentor (e.g., computer analysis, media preparation, fly collection, etc.). Additional paid campus positions are discouraged. However, if you work an additional paid campus position(s), it (they) cannot exceed 10 hours per week, as undergraduates are only legally able to work a maximum of 20 paid hours a week on campus. This includes the Undergraduate Research Fellows program, work study, etc. (mandatory*)
- 2. not take summer classes while in the INBRE program, unless approved by UNK INBRE coordinator. (mandatory*)
- 3. become familiar with the literature on your research project.
- 4. keep a detailed laboratory notebook that must be left with the faculty mentor after completion of your program.
- 5. become adept at techniques required by your research project so you can become independent in the lab.
- 6. work on only one research project with one mentor in one department at a time. For example, you will not be allowed to work on your INBRE project at the same time you are working on a project with another professor.
- 7. write abstracts and make oral or poster presentations for professional society meetings. Be provided monetary support for **one** professional society meeting for the two-year period that you are a scholar.
- 8. attend the annual Nebraska Academy of Science meeting and banquet (mandatory*)
- 9. attend the annual INBRE meeting (mandatory*)
- 10. complete the Responsible Conduct of Research training **before** beginning lab work (**mandatory***)
- 11. attend the monthly INBRE meeting (mandatory*)
- 12. attend the weekly INBRE scholars meeting (mandatory*)
- 13. attend the online journal club with the other campuses (mandatory*)
- 14. maintain a level of conduct that will not embarrass yourself or your mentor, including attitude, behavior or dress.
- 15. maintain a 3.0 GPA once you have started the program. (mandatory*)
- 16. be evaluated and informed of problems with participation or progress. If needed, a plan of action will be enforced that may include termination from the INBRE program.
- * Failure to adhere to mandatory policy is a breach of this contract and can result in immediate termination as a scholar. Termination means immediate loss of stipend and all privileges associated with the program.

What can INBRE students can expect from their faculty mentors? Your faculty mentor will:

- 1. provide you with a thorough explanation of the project on which you will be working.
- 2. provide you access to on-line journals from professional societies to which your mentor is a member.
- 3. assist you in setting up a reasonable work schedule.
- 4. provide you with a laboratory notebook.
- 5. assist you in learning the proper laboratory techniques necessary to complete your project.
- 6. supervise you in the laboratory until you and your mentor are confident you can complete the work on your own. **INBRE** scholars are not allowed to work in the laboratory in the evenings or weekends alone, unless deemed appropriate by your mentor (e.g., computer analysis, media preparation, fly collection, etc.).
- 7. assist you in ordering the materials necessary to complete your research.
- 8. assist you in submitting an abstract and registering for a professional society meeting.
- 9. assist you in preparing an oral or poster presentation for a professional society meeting.
- 10. make travel arrangements to attend a professional society meeting.
- 11. evaluate you on a semester basis and inform you of your progress and participation.

By signing this contract, I understand that if I, as a INBRE scholar, do not meet the terms of this contract, I can be immediately terminated as a INBRE scholar with the loss of privileges and stipend.
