Math Teachers’ Circles are an opportunity for middle level teachers and mathematicians to get together and work on some really interesting mathematics. The key component of these meetings is to have fun. We will engage in problem solving activities to increase confidence and provide classroom activities. Dinner is provided.

What is a Math Teachers’ Circle?

Math Teachers’ Circles are an opportunity for middle level teachers and mathematicians to get together and work on some really interesting mathematics. The key component of these meetings is to have fun. We will engage in problem solving activities to increase confidence and provide classroom activities. Dinner is provided.

For more information check out http://www.unk.edu/mathcircle

Mission Statement

The Central Nebraska Math Teachers Circle will establish a community of problem solvers, bringing together middle school math educators and mathematicians to enhance problem solving skills and to reenergize a passion for mathematics.
