

17th Annual Fall Student Research Symposium

Each summer a group of students conducts original research & creative projects in collaboration with faculty mentors under the auspices of the Summer Student Research Program. They communicate the results of those projects in written and oral presentations at the Fall Student Research Symposium. The public is welcome to review posters in Ponderosa E, and to hear oral presentations in Ponderosa C and D.

Additional poster presentations will be made by students from Family Studies, Geography, and Music.
