Chair Krueger called the meeting to order at 12:03.

Faculty Senate sent a faculty concern over perceived deficiencies in student accommodation plans to Student Affairs. Oravecz invited Luker, Director of the Academic Success Office, to attend. There was much discussion on various aspects of accommodation plans, resources, training, and ADA compliance. Luker indicated that it was considered a best practice in his field to have mandatory training on disability accommodations and that he implemented this at Metropolitan State University of Denver.

Rogoff moved that the Committee draft a Faculty Senate resolution calling for mandatory disability awareness training with its distribution and a vote thereupon to be completed electronically. The motion PASSED by consensus.

The meeting adjourned at 1:08 PM.

Respectfully submitted,

Noah Rogoff
