Add Graded Activities to Canvas

If you have graded activities such as assignments, quizzes, group work, etc., use Canvas as a way to manage your Gradebook and student submission of work completed. Using these tools help manage the flow of information, grades, and feedback to students. Canvas provides Assignment, Discussion, and Quizzing tools for graded activities.

1. **Instructions to add an assignment group in a course.**

2. **Instructions to weight the final course grade based on assignment groups.**

3. **Instruction to create rules for an assignment group.** For example a rule for dropping the lowest test grade.
