Do you use Zoom recordings for your Canvas courses? If so, this is a must read for you!

The Zoom + ilos integration allows you to automatically pass recordings from your Zoom meetings directly to your ilos account in Canvas.

How do you integrate your Zoom recording into ilos in Canvas?

1. Open Zoom, select Record > Record to Cloud
   When you are finished with the meeting, the recording will be stored then transferred to your ilos account.

2. Open Canvas > tap on your course > tap ilos-Video, Record, Share > your Zoom recording will be automatically passed to ilos > Add video to your Canvas course.

Note:
- Zoom “Record to cloud” are stored for one day only and are then deleted.
- Zoom “Record on this computer” are stored locally on your device
