Privacy Matters in Firefox Series

Clear Browsing History

As you browse the web, Firefox helpfully remembers lots of information for you – sites you've visited, files you've downloaded and more. All of this information is called your history. However, if you are using a public computer or share a computer with someone, you may not want others to be able to see these kinds of information. Thus, you need to clear your browsing history.

Clear Browsing history for PC users?

1. At the top of the Firefox window, click the Firefox button, go over to the History menu and select Clear Recent History...

For Windows XP: At the top of the Firefox window, click the Tools menu and select Clear Recent History...

Clear Browsing history for Mac users?

1. In your Firefox Menu bar, click on Tools > Clear Recent History...
