Add a Splash of Color to Your Tabs

PC and Mac Users

Colorful Tabs for Firefox is a highly customizable add-on that makes each tab that you open a different color which makes tabs easier to distinguish from each other and it helps to make the active tab stand out against the background tabs.

Install the Colorful Tabs Extension

- Open Firefox.
- Go to this page: https://addons.mozilla.org/en-US/firefox/addon/1368/
- Click on the "Add to Firefox button"
- In the confirmation dialog that opens click on "Install now"
- The installation progress will be displayed in the Add-on dialog, upon completion click on the "Restart Firefox" button.
- Once the extension is installed, each time you open a tab, it will be in a different color.
