Firefox **Pinned Tabs** option allows you to always keep your favorite web apps like Blackboard, Outlook Web App (OWA), UNK online phone directory, and/or anything else you want open and just a click away. Pinned Tabs are small, can't be closed accidentally and open automatically when you start Firefox. The following illustration shows Office.com, UNK Phone Directory, Qualtrics and Blackboard websites pinned to Firefox.

The following links goes over the features of Pinned Tabs and will show you how use them.

- Why should I use Pinned Tabs?
- How do I make a Pinned Tab?
- How do I remove a Pinned Tab?
- How are Pinned Tabs different than normal tabs?
