Your iPad supports many different characters from around the world. This means you can type your documents in a variety of languages. There are lots of languages available for your iPad and you can easily switch between them.

**Instructions to add a New Keyboard to your iPad:**

1. From the **Home screen** of your iPad select **Settings > General > Keyboard**.

2. On the next screen, tap the **Add New Keyboard...** option and select the desired language from the list of languages to add to your iPad. This will install the new keyboard on your iPad.

**Instructions to switch between Keyboards:**

You can switch between the different languages by tapping the **globe** key (🌍) that is located to the left of the **Space Bar**.
