Microsoft Office Offers two new apps called **OWA for iPhone & OWA for iPad** which are used to access the Office 365 email via iPad and iPhone. Microsoft’s goal is to help customers remain productive anytime, anywhere. This includes providing a great email experience on smartphones and tablets. [OWA for iPhone](#) and [OWA for iPad](#) can be installed directly from the Apple App Store.

To take a closer look at how OWA for iPhone and OWA for iPad works click the [online tutorial](#) or register for one of the following workshops by [clicking here](#).
