If you want to share your favorite digital pictures with others, you can resize and send them as e-mail message attachments in one step. Make sure the pictures you want to share are on your computer, and then follow these steps.

1. Open the folder that contains the pictures you want to send in your e-mail, and then click the picture.

To select more than one picture, press and hold the **Ctrl** key while you click the pictures.

2. On the toolbar, click **E-mail**.

   *This command only appears if an e-mail program is installed on your computer.*

3. In the **Attach Files** dialog box, select a picture size from the **Picture size** list, and then click the **Attach** button.

   ![Select E-mail](image)

Windows opens a new e-mail message and attaches your picture to the message using your preferred e-mail program.

4. When you have finished writing the e-mail message, click **Send**.
