REPORTING AN INCIDENT

Eventually, we all get hacked. The bad guys are very persistent and we can all make a mistake. If a phone call from the "Help Desk" doesn't sound quite right, if an email seems suspicious or if a program you installed starts acting funny, ask for help! Your ITS security team is there to help you. The sooner you report an incident, the sooner we can help resolve the problem.

*Call the Helpdesk at 308-865-8363.*
