Elevator

Seating for Individuals in Wheelchairs on Upper Concourse

Seating for individuals who use wheelchairs is available in the northeast and southeast corners on the concourse level. Additional seating is available on the lower level in the southwest corner. One other person will be allowed to sit with each individual who uses a wheelchair. Individuals who don't use wheelchairs but have restrictions that prevent climbing stairs may use the elevator located on the northeast corner of the building to get to the lower floor and may sit on the first row of the bleachers. Another option is to take one step down from the concourse level. Since these seats are not reserved, you should allow plenty of time before the graduation ceremony to obtain these seats. There will be hosts and hostesses at the entrances of the building to assist individuals as needed.

Seating for Individuals in Wheelchairs on Lower Level
