How to create an unofficial ACT report
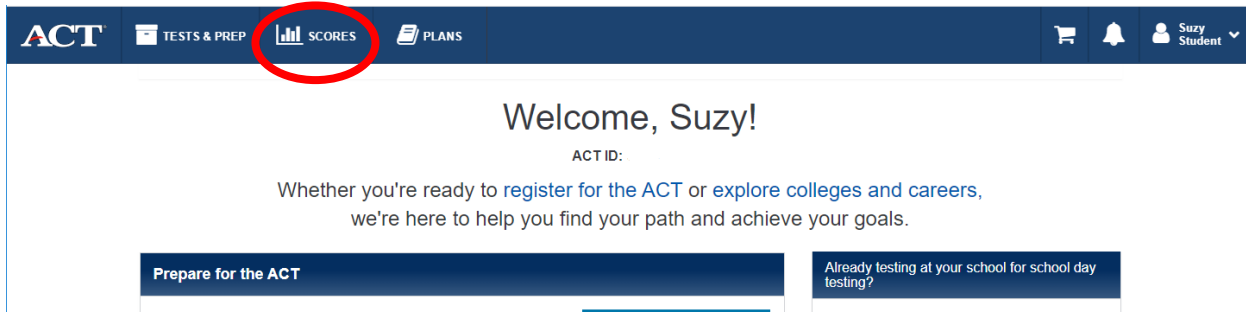

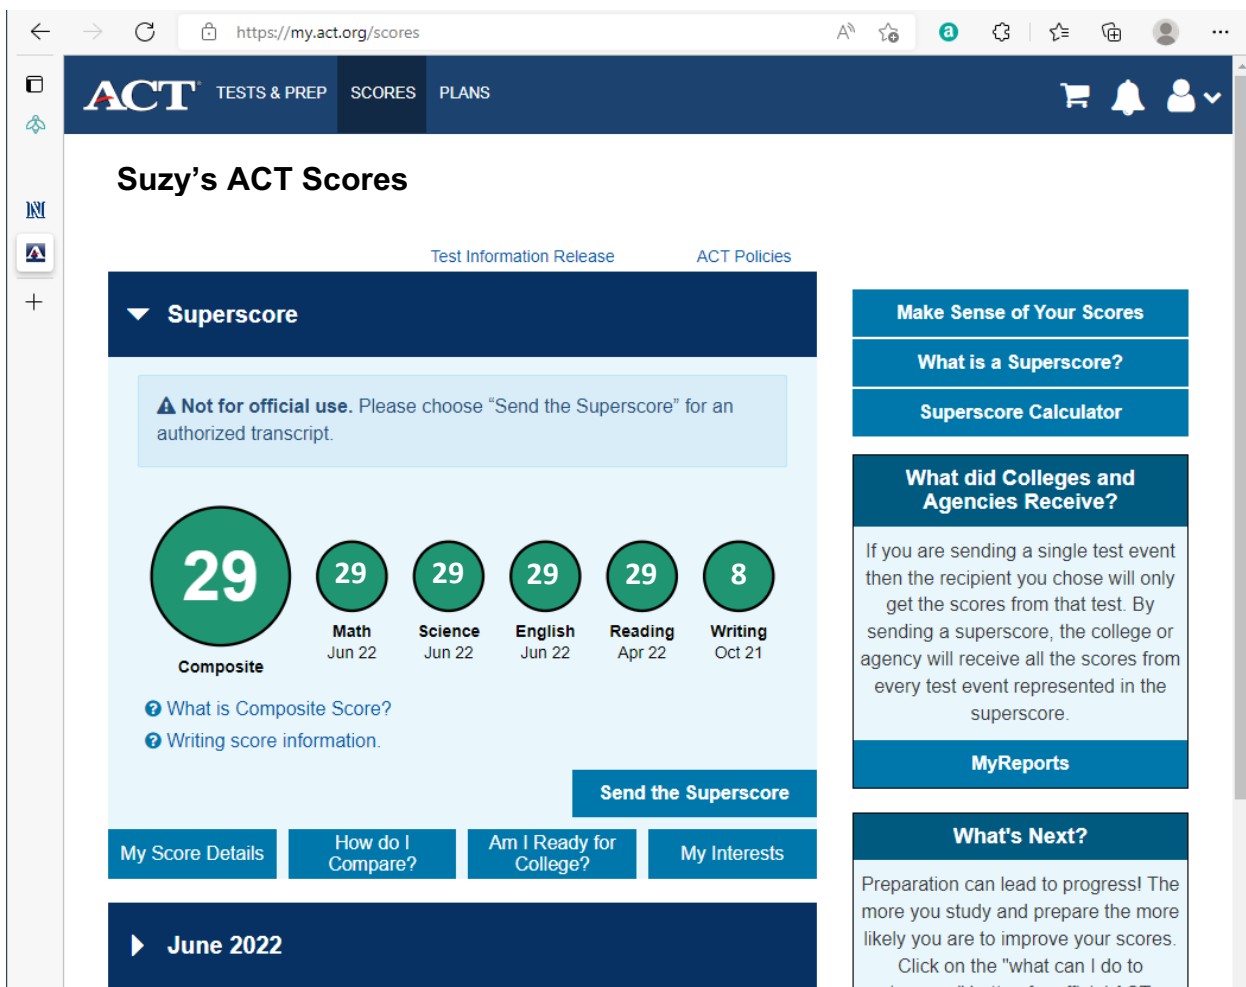

You can access your Student Report through your online ACT account at **https://my.act.org**. This is the same account that you used to register for the tests online.

Once you log in to your online ACT account, click on the SCORES link at the top of the page.

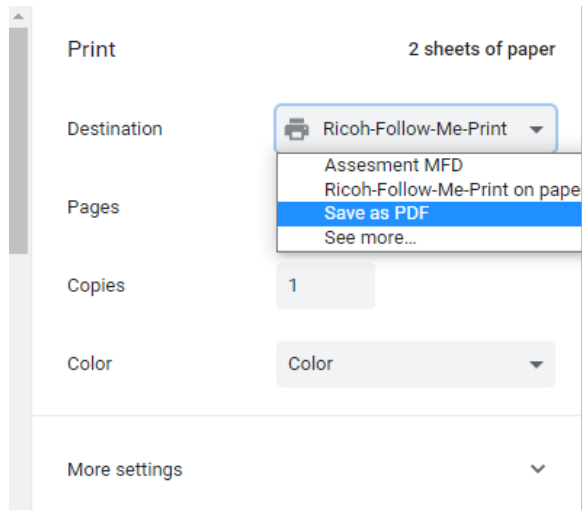

After you click SCORES, you should see a list of your ACT score reports with the Superscore report expanded.

Since ACT no longer allows the score report to be downloaded, we would like you to print this report by using your browser's print option. You can print the report by pressing the Ctrl and P keys; by click on File and then Print…or by right-clicking on the screen and selecting Print…

After selecting Print in any of the above three ways, you need to "Save as PDF" or "Save as Adobe PDF" in the Print Destination box. Either of these options will work.

Save the file to your computer and then you will be ready to upload this file to the Honors Program Scholarship Application.
