COURSE DESCRIPTION:

This course will examine the theoretical and applied aspects of invasive and nuisance species ecology and management, including terrestrial and aquatic flora and fauna. Major themes of the course will include: 1) ecological concepts that describe invasion likelihoods and consequences as well as ecosystem resistance and resilience; 2) invasive species management; and 3) policies and regulations involving invasive and nuisance species.

STUDENT LEARNING OUTCOMES:

By the end of this course, students should be able to:

- 1) Describe the characteristics common of invasive species, whether terrestrial or aquatic.
- 2) Explain the role of ecosystem resistance and resilience in preventing or promoting invasions.
- 3) Apply ecological and social concepts in the development of a plan to manage/control an invasive species.

PREREQUISITES:

There are no formal prerequisites for this course but this course is only open to those who are enrolled at UNK as graduate students.

INSTRUCTIONAL METHOD:

This course is presented entirely online; therefore, good time management and self-study skills are critical to your success! Extra effort is often required in an online course compared to the classroom-based version because most of the work rests on your shoulders. You will be required to read or view the assigned materials (including the short lecture videos) each week. Most weeks include at least one discussion. Weekly course updates and reminders will be provided via the "Announcements" feature in Canvas. Communication with the instructor can be by phone, e-mail, or in person. You are encouraged to use all three as frequently as needed.

You will be evaluated on your ability to critically evaluate, reflect on, integrate, and apply course information various assessments, including (but not limited to) discussion and a final project. You are welcomed to work with or share thoughts about your various assignments with your classmates, but you will be required to write and submit your own original material.

COURSE REQUIREMENTS:

Students are required to complete all textbook or other assigned readings, view all presentations, and contribute to all discussions as scheduled. All assessments must be submitted by the assigned due dates. Students should make the effort to log into the class throughout the week rather than just one or two days, even if it's just a "quick check" of the discussions or announcements.

MISSED ASSIGNMENTS/QUIZZES/EXAMS AND MAKE-UP POLICY:

Any and all discussions, assignments, and or other assessments in this class **MUST** be submitted by the designated deadline (see course calendar below) unless you and I have discussed otherwise. If you do not have an approved absence, you will receive a zero on that assignment. Please note that computer emergencies (e.g., hard drive crashed, etc.) are **NOT** considered an excuse. You should always have an alternative means of accessing or submitting electronic information and course work. If you have an emergency (e.g., illness, death in the family, etc.), please contact me no later than 36 hours after the missed deadline to make new arrangements.

REQUIRED MATERIALS:

All required readings will be provided on Canvas. There is no single textbook to purchase as I will be drawing from many textbooks, journal articles, and popular readings to illustrate the concepts of this course. If you are interested in purchasing any of the textbooks referenced in class for the future, please let me know and I can provide more information.

For research resources, please be sure to use your local library, UNK interlibrary loan (Loper Loan), or online search engines (e.g., Google Scholar) as you will likely need to access older articles that may or may not be available online.

GRADING POLICY: Below is a roughly estimated breakdown of the assignments and points for this course. Please note that these points may be subject to change but that those changes will be communicated with you in a timely fashion. Grades will be entered in Canvas so you should be aware of where you stand throughout the semester.

Grade Item	Points
Introductory Video	10
Weekly Discussions (Contributing)	125 – 175
Discussion Leading	50
"What if...?" Scenario	50
Team Management Plan for Invasive Species (Various Phases Combined; Written and Oral)	175
Peer Evaluation	25
Final Reflection	25
TOTAL	460 – 510

Grades in this class will be assigned according to the standard scoring system described below. Only by attaining these percentages can you be assured of receiving a desired grade.

A+	97 – 100%	A	94 – 96 %	A-	90 – 93%
B+	87 – 89%	B	84 – 86%	B-	80 – 83%
C+	77 – 79%	C	74 – 76%	C-	70 – 73%
D+	67 – 69 %	D	66 – 64%	D-	60 – 63%
		F	< 60%		

Please note: If your final grade is within 0.5% of the next highest grade, your grade will be rounded up (e.g., an 89.50% will be considered an "A-"). This is the definitive cutoff for rounding grades. There will be no exceptions to this policy.

COURSE CALENDAR: This is a *tentative* course schedule. If changes are made to the schedule, the class will be notified. Check the assignment directions, the Canvas calendar, and the “Announcements” page for due dates for discussions, assignments, and exams. Please note that this schedule is subject to revision as necessary. Changes to the schedule will be communicated in a timely fashion.
