If a student wishes to withdraw from their team, they must notify their team members and Jamila Bajelan.

**Competition limit: we have a limit of eight teams, which will be accepted on a first-come first-serve basis.**

\_\_\_ **WAITLIST.** Check here if in the case your registration is received after the initial eight teams have secured their spots in the competition, you would like your team to be put on a waitlist should a team drop out (in a timely manner).

**Important:** if this box is checked, you will be automatically considered for one of the eight open spots in the competition. Your team will *only* be waitlisted if those first eight spots are full.

#### CONDUCT

We agree that it is our own responsibility to pick up the Water Rocket Kits in a timely manner, to coordinate with each other to build the rocket on our own time, and to behave in a manner that promotes good sportsmanship. We understand that poor sportsmanship will result in disqualification. Finally – if we win – we agree to split the prize equally (and pick those up in a timely manner, too!). Rocket launch stands must be returned before prizes are awarded, and for teams to remain in good standing for future competitions.

I agree (all team members must sign before submitting form):
