If you have...

- The ability to work effectively with others
- A willingness to share academic competence
- A passion for working with children or youth
- A belief in the American work ethic

Then teaching is the right profession for you!
Welcome
UNK’s teacher education department has been the backbone of the educational system since its beginning as Nebraska State Normal School in 1905. Chances are, if you were educated in Nebraska, your teachers, coaches, principals or superintendent have education credentials from UNK. This 112-year history educating Nebraska’s educators brings an unmatched reputation and legacy that our graduates take with them to their schools and throughout their careers.

Here at UNK, students get in the classroom early and often, and our close partnership with Kearney and area schools gives students numerous opportunities to interact in both early practicums and student teaching experiences. We know the value of hands-on learning and we are here to guide you in these field experiences.

Mission
The Department of Teacher Education is committed to the principle that teaching is a moral endeavor and that the primary purpose of education in America’s schools is the preparation of our youth for the role of citizen in our social and political democracy. This basic belief forms the foundation of our mission. The mission is predicated upon the four moral dimensions espoused by the National Network for Educational Renewal (NNER): (a) the encouragement of youth into a social and political democracy, (b) access to knowledge, (c) nurturing pedagogy, and (d) stewardship. The themes of democracy, diversity, and technology are also central to department courses and programs.

Department Objectives
- To provide premier undergraduate and graduate programs for the preparation of pre-service teachers and the professional development of in-service teachers.
- To encourage the habits of independent and lifelong learning among undergraduate- and graduate-level students.
- To foster the development of effective and committed educators who are responsible, collaborative, and reflective. To this end, department undergraduate and graduate courses provide a broad knowledge base, applied skills, competencies, dispositions, and appropriate field and/or practicum experiences.

Desired Outcomes for Graduates
1. Understand the relationship of the philosophy that guides the education process in a democratic society, the College of Education, their specific discipline, and the behaviors they utilize in their classrooms.
2. Understand the central concepts, tools of inquiry, instructional technology, and standards of the discipline(s) they teach and be able to create learning experiences that make these aspects of subject matter meaningful for all students.
3. Understand how cultural background influences student learning and development. They will be able to provide technologically-enhanced and other learning opportunities that support intellectual, social, and personal development of diverse students.
4. Understand different student learning styles and exceptionalities and be able to develop a variety of instructional opportunities, including the use of technology, that are adapted for diverse learners.
5. Be reflective practitioners who continually evaluate the effects of their choices and actions on others (students, parents, and other professionals in the learning community) and who actively seek out opportunities to grow professionally.
6. Understand and use both formal and informal assessment strategies to evaluate professional standards to ensure the continuous intellectual, social, and physical development of the learner.
7. Be skilled in the democratic process of collaborative decision making.
8. Understand the strengths and needs of their students and possess the necessary skills to work effectively with individuals and groups from a variety of racial, cultural, ethnic, experiential, and linguistic backgrounds.
9. Have knowledge of family and school influences that affect student wellness, learning, and achievement. They must be able to form partnerships among parents, educators, and the community in the best interests of their students.
10. Understand the school as a democratic system and how to work with individuals and groups to facilitate structures and policies that create and maintain school as a safe, caring, and inviting place for members of the school community.

Early Childhood Inclusive Teaching Field Endorsement
Bachelor of Science in Education Degree: Middle Grades Teaching Field Endorsement

Online Programs
Bachelor of Arts in Education Degree: Early Childhood Inclusive Teaching Field Endorsement (ECI)

Your Degree Program
When you pursue your career in Teacher Education at UNK, your four-year Degree Program will consist of:

- General Studies Program
- Professional Sequence
- One subject endorsement or one field endorsement
- 120 hours total

Teaching Subject Endorsements
- Biology 7-12
- Chemistry 7-12
- Geography 7-12
- Health Education 7-12
- History 7-12
- Physical Education PK-6, 7-12, PK-12
- Physics 7-12
- Political Science 7-12
- Psychology 7-12
- Secondary English 7-12
- Sociology 7-12
- Special Education Generalist K-6, 7-12
- World Language 7-12
    - French, German, Spanish

Teaching Field Endorsements
Art PK-12
BMT 6-12 (Business, Marketing & Information Technology)
Early Childhood Inclusive Birth-Grade 3
Elementary Education K-6
English Language Arts 7-12
Health & Physical Education PK-12
Mathematics 6-12
Middle Level Education 5-9
English Language Arts -Mathematics -Science -Social Science
Music PK-12
Social Science 7-12
Special Education Generalist K-12

Supplemental Teaching Endorsements
Must be paired with subject or field endorsement
Adapted Physical Education PK-12
English as a Second Language PK-12
Interscholastic Coaching 7-12
SPED: Behavior Intervention Specialist B-12
SPED: Functional Academic Skills and Independent Living Specialist B-12
SPED: Inclusion and Collaboration Specialist PK-12
Theatre 7-12
Work-Based Learning B-12

Educator Certification Office
UNK students who are pursuing a program/degree that leads to initial teacher certification must be formally admitted into the Teacher Education Program. Admission requirements include maintaining a 2.75 GPA, passing the Praxis Core exams, completing specific classes with a grade of “C” or above, providing evidence of the absence of any criminal conviction that would prevent a student from qualifying for a teaching certificate, (includes self-disclosure and a criminal background check), and providing evidence of sufficient emotional and mental capacity. At the end of their programs, students spend a semester, or more, in the field student teaching.

We are difference makers
Teaching is indeed a calling. At UNK, we can help you make a difference in the lives of students – ultimately making a big difference in the world today and tomorrow.

Advising
Academic advising is an important and essential component in your college success. UNK provides quality individual advising. Frequent and on-going communication with your advisor and the Educator Certification Office is recommended to ensure a smooth and successful transition to UNK and to develop an efficient progression through the desired program of study.

Involvement
ELED Club
Student Education Association of Nebraska (SEAN)
SD College – UNK

Welcome to UNK's Teacher Education Department. Here, students receive a broad knowledge base through applied skills, competencies, dispositions, and appropriate field or practicum experiences. The mission of the department is to prepare pre-service teachers and promote lifelong learning among undergraduate and graduate-level students. UNK is committed to fostering development and reflective practices among educators.

The programs offered include Bachelor of Arts and Science in Education Degrees with various teaching field and endorsement options. Online programs are also available. The Department of Teacher Education aims to prepare students for a career in education, ensuring they understand the cultural background's influence on student learning, work collaboratively, and reflect on their practices.

UNK students pursuing teacher certification must be formally admitted into the Teacher Education Program. Admission requirements include maintaining a 2.75 GPA, Praxis Core exams, completing specific classes with a grade of “C” or above, and providing evidence of the absence of any criminal convictions.

To learn more or seek advice, visit the Educator Certification Office at 308-865-8264 or eco@unk.edu. Academic advising is an essential component in your success. Frequent communication with your advisor and the Educator Certification Office is recommended. At UNK, students have the opportunity to make a difference in the lives of students and contribute to society's growth.
