JULY:
- □ If your student has not done so already, encourage them to get in touch with their roommate to plan who is bringing what for their room.
- □ Remind your student if they have not done so already, to send in their official ACT scores and if they took any college courses, official transcripts.
- □ Have a discussion with your student about his/her class schedule. Students are encouraged to register for 15 credits per semester because that puts them on pace to finish in four years. However, some students choose to take fewer credits. Now is a good time to review the schedule because Academic Advising and Career Development can answer questions you might have, and help make adjustments.
- □ Help your student identify potentially challenging courses before school starts. Look through textbooks together and talk about your student’s greatest academic fears and strengths. Then make a plan to get help from the professor and the Learning Commons as soon as school starts.

AUGUST:
- □ (8/21) Move In! (go to www.unk.edu/welcome for Move-In details)
