

**A Resolution
Presented to
The Faculty Senate
of the
University of Nebraska at Kearney
December 3, 2009**

Whereas, the University of Nebraska at Kearney has faced severe weather events over the past few years, ice storms and tornadoes, which resulted in damage to buildings and trees on the campus, and

Whereas, the University of Nebraska at Kearney has also undergone extensive renovation to the infrastructure of the campus as well the construction of three new residence halls resulting in ugly, hazardous, and disruptive sites on campus, and

Whereas, the campus has lost a large number of trees as a result of these activities and disasters, and

Whereas, these losses have adversely affected the tradition of our campus as an attractive park-like atmosphere,

Be it resolved that the Faculty Senate of the University of Nebraska at Kearney acknowledges the efforts of the University of Nebraska at Kearney Administration, in particular, Vice-Chancellor Barbara L. Johnson and her staff for their efforts in planting trees and other greenery in order to establish this campus as one of the most beautiful in the State of Nebraska. We express our gratitude to her and her staff and hope that these efforts will continue long into the future.
