

**Travel Restrictions for University of Nebraska at Kearney
Faculty, Staff, Residents, Fellows, and Students Due to COVID-19
January 19, 2021**

POLICY

In order to slow the progression of COVID-19 in our community and protect our students, employees, and communities with COVID-19, UNK is implementing restrictions on international and domestic University-sponsored travel, **effective immediately and until further notice.**

The following travel guidelines apply to all faculty, staff, and students. This policy applies to regional, national and international travel.

International Travel

Anyone returning to the United States should complete a seven-day quarantine before coming to campus or circulating in the community. Stay home, wear a mask if you are around anyone you didn't travel with and pay close attention to your symptoms.

- All international travelers must report to the Public Health Center upon return to Kearney to begin the seven-day quarantine period.
- If you need to leave your home for an urgent purpose, wear a mask and please minimize your time outside the home.

Domestic Travel

Anyone traveling domestically on public transportation or attending gatherings with more than 25 people who are not wearing masks should likewise quarantine for seven days. Stay home, wear a mask if you are around anyone you didn't travel with and pay close attention to your symptoms. You DO NOT need to contact the Public Health Center regarding your quarantine. But, if you have symptoms, you must contact the UNK Public Health Center for direction per the existing UNK COVID-19 policy. If you need to leave your home for an urgent purpose, wear a mask and please minimize your time outside the home.

All students and employees should avoid traveling in cars with other people. If you do travel in a car on university business, you are required to wear a mask. Please know that if someone else in the vehicle tests positive for COVID-19, you will be required to quarantine.
