Confirmation of Change from Undergraduate to Graduate Status during the 21/22 school year

The UNK Office of Financial Aid has been notified that your degree status will change from Undergraduate to Graduate status between semesters. A change in degree status will require that we update your FAFSA accordingly. This in turn will result in a change to your dependency status from dependent to an independent student and your resulting financial aid eligibility. Before making any adjustments to your financial aid, we require you to sign this document confirming that you will be enrolling as a Graduate student for the next semester so that we may proceed with the update to your FAFSA.

- We cannot move forward with the processing of your financial aid award next semester until we receive this signed document back confirming this change in degree status.
- Notification of the change to your financial aid award will be sent in a communication to your preferred email letting you know.
- If you will not be moving into a new degree program next semester, please contact our office by emailing us at finaid1@unk.edu or call us at (308) 865-8520 and ask to speak with your Financial Aid Counselor.
- Preferred way to submit documents is to log into MyBlue and access ‘Document Upload’ on the financial aid page under Related Documents. Other methods include email, fax, mail or in person.

"By signing this document, I (the student) confirm that I will be changing my degree status from an Undergraduate student to a Graduate student in this next semester during the 2021/2022 school year. I authorize the University of Nebraska at Kearney to update my FAFSA accordingly such that my dependency status will be correctly listed as an independent student and so that my financial aid may be awarded appropriately for my new degree program."
