“Mom, the care package and card were great! Absolutely perfect timing-I was already starting to get homesick”

-- J. Williams, Class of 2024

Once school begins it can become a challenge to find creative ways to provide your student with support. In particular, the beginning of school and fall final exams are two of the most stressful experiences your student will have at college. You can't be there with them, but you can give them a boost and let them know you are thinking about them. Here's how:

Our Residence Hall Association (RHA) is sponsoring and distributing welcome and fall final exam care packages for our students. For those who have never sent a college care package, the impact on your student is amazing. We guarantee your student will love them and the sales help fund many of our organization's student initiatives!

We have designed a great set of welcome and fall final exam care packages for this semester. All you need to do is choose the package option you want to send and craft your encouragement message(s). Your encouragement card will be the first thing they see when they open their care package. Here are your package choices:
