Scope

This policy applies to all campus units and all faculty, staff, and students.

Policy Statement

The University of Nebraska at Kearney establishes and clearly articulates campus-wide policies to support the university’s mission. Policies provide clear guidance to faculty, staff, and students; promote a culture of compliance and accountability; and mitigate or manage significant institutional risk. Responsible administrators and their offices must comply with the procedures in this policy for developing, revising, distributing, maintaining, and withdrawing campus policies.

Reason for Policy

The present policy provides for a consistent, transparent and inclusive mechanism for policy development and campus notification. It also provides a
consistent policy format, an accessible electronic policy library, and an archive of policies for future reference.

---

Procedures

Policy Development Process

1. **Identification of need and development of draft policy**
   A responsible office that identifies the need for a new campus policy or review of an existing policy must draft a policy using the standard template. The responsible office should consult stakeholders, campus leadership, and others as warranted. The UNK Compliance Committee may also be consulted during the draft state.

2. **Review and comment period**
   Once approved by the responsible administrator (e.g. the appropriate Vice Chancellor or Chancellor) the policy will be submitted to the Senior Advisor to the Chancellor for posting on the campus policy website for a period of 30 days to provide opportunity for campus review and comment. Exceptions to the 30-day period may include a change in federal or state law, or a significant institutional risk.

3. **Approval and posting**
   Following the review and feedback period, the policy will be routed to the responsible administrator, or as appropriate to the Cabinet, for final approval. Once approved, the policy will be posted with approved polices on the campus policy website.

4. **Distribution and maintenance**
   The responsible office should monitor policy compliance and effectiveness. Policies should be reviewed by the responsible office at least every three years from the effective date—or the last update or review—for accuracy and currency. Revisions affecting the substance and scope of the policy should follow the policy development process. Minor revisions and changes in contacts, forms, or related information may be made by the responsible office without review and can be submitted to the Senior Advisor to the Chancellor for posting. Withdrawal of a policy should also follow the development process. Review, revision, and withdrawal actions should be noted in the history section of the policy. Versions of policies will be archived at least annually.

---

Relationship of Campus Policies to Local Policies

Academic and administrative unites (including colleges, schools, and departments) may develop local policies whether or not a corresponding campus policy exists. Local policies must be compliant with any applicable campus policy. In the event of a conflict between a campus-wide policy and a school or departmental policy, the campus policy will prevail. In the event of a conflict
between a local or campus-wide policy and a University of Nebraska Board of Regents policy, the Board of Regents policy will prevail.

Compliance
Faculty, staff, and students are responsible for knowing, understanding, and complying with policies that related to their position, employment, or enrollment at the university. Responsible offices are responsible for following the policy development and implementation process established by this policy, communicating their policies effectively, reviewing and updating their policies regularly, and monitoring their policies for compliance and effectiveness.
