Selected Comparison Groups

August 2010

NSSE participants are able to customize their *Institutional Report* by tailoring up to three comparison groups. In June of 2010, your institution was invited to select comparison groups via the "Report Form" on the Institution Interface. This Selected Comparison Groups Report summarizes how your institution selected its comparison groups and lists the institutions within them.

NSSE reports display results for each institution alongside three comparison group columns. Institutions have the option to customize each column or select a recommended default group of institutions. NSSE comparison groups may be customized in several ways. Contacts may identify specific institutions from the list of all current-year NSSE participants, create the list using institutional criteria, or begin with institutional criteria, then add or remove specific institutions to refine the comparison group.

If an institution does not customize a comparison group, NSSE provides default comparison groups which we have found to provide relevant comparisons for most institutions. If your institution opted for any of the default groups, they are:

Comparison Group 1 - For institutions not participating in a NSSE consortium, this group contains current-year NSSE institutions in the same geographic region and sector (public/private). For consortium institutions, this group contains results for the other consortium members.

Comparison Group 2 - All other current-year U.S. NSSE institutions sharing your institution's Basic Carnegie Classification.

Comparison Group 3 - All other current-year U.S. NSSE institutions (Canadian participants are also included in this group for Canadian institutions).

The selected comparison group locations in the institutional reports are illustrated in the mock report below for NSSEville State. Comparison group 1 is "Mid East Public," comparison group 2 "Carnegie Class," and comparison group 3 "NSSE 2010."
