Tutorial
How to enter data into the new Weave and complete the annual report
Fall 2020

1. If you need access to Weave or have not yet logged in, contact Beth Hinga (hingabd@unk.edu) to have your account activated.

2. Go to the IT Services page, found under RESOURCES at the bottom of the UNK home page.

3. On the IT Services page, find Weave and click on the logo or title.
4. Use your UNK credentials to log into Weave.

You’ll be asked to use TrueYou for authentication. Choose “Remember me for 12 hours” to prevent having to do this again today.

5. When you log in, you’ll be taken to a dashboard that gives some stats about the “projects” you’re assigned to. The page also has announcements from Weave about upcoming webinars and other news items. Occasionally the Assessment Office may also post announcements.
6. At the top of the page, click on Projects. This will take you to a page that lists the “projects” assigned to you. Academic programs should have an Assessment project and an Accreditation project. Student Affairs programs usually have only an Assessment project.

Note that projects have years attached to them (red arrow). This is significantly different from the old Weave.

7. To input assessment plans and data, click on the “Assessment” type project for the appropriate year (blue arrow above).
8. On the “home page” for this project, you’ll see an Outline View displayed on the right. It is color coded. Goals are orange. Outcomes are green. Measures are purple. You may click on any block within the outline view and you will be taken to that location in the main page.

Let’s say that I have some results to enter under Goal 1, Outcome 1.1, Measure 1.1.1. Navigate there by clicking on the purple box labeled 1.1.1.
It takes you to Measure 1.1.1. I’ve scrolled slightly down to the Targets box.

9. You may enter your results here. Click on “Enter text” underneath Results.

A text box appears. Type your results in here. This can be a location for “just the facts” because there’s an Analysis box below it. As soon as you click somewhere else on the page your results are saved.
10. Click “Enter text” under Analysis. A text box opens up. Enter your analysis of your results here. Note that you have a limit of 5,000 characters in this text box.

11. Optional: Click on Improvement Type, under Results and Analysis. Here you can use a drop-down menu to choose a type of improvement that was achieved since the previous year.

12. Click on Improvements Achieved. This is a text box where you can describe any improvements you achieved since the previous year.
12. Finally, underneath those is a link to View Action Plan. When you click on it, it will take you to a space above the Measure (actually to just under the Outcome) where you can view or add an Action Plan associated with this particular Outcome (1.1). Look ALL THE WAY UP AT THE TOP of the page to find Action Plan. You should add an action plan anytime you do not meet an outcome. This is a plan for how you will address the deficiency.

13. To add an action plan, click on the + symbol to the right.
A new Action Plan panel will appear.

Anywhere there is an “Enter text” in this panel, you may enter a narrative or description.

You may enter a budget estimate for completing this action plan. Please mention this in your annual report as well.

14. If you have documents you’d like preserved (rubrics, a report to an accrediting body, graphs, etc.) you may upload it to the Project Attachments area at the bottom of the page. Scroll down to the bottom of the page. In Project Attachments you can drag and drop files to this area, or browse your computer and upload.
15. Repeat Steps 8-14 for each measure to complete your assessment result reporting for this year.

Wait! If you’re in an academic program, you’re not done yet... you still need to do the **annual report!** This is found under Projects.

16. Go back to the Projects tab at the top of the page, and find the project that is of “Accreditation” type. This doesn’t have anything to do with accreditation of your program or of the institution. Instead, it is a type of project in which you have formattable text boxes to answer open-ended questions. Click on the appropriate project labeled Accreditation.
17. Each question on the annual report is the same as it was before we switched to the new Weave. Each question is located under a dark shaded box. To start answering a question, click on Add a response.

A new page opens in which you have an Evidence section and a Narrative section.

The Evidence section is a place for you to upload files such as graphs, rubrics, spreadsheets, or other evidence you wish to use to support your narrative or to preserve for later reference. You may upload any document you’d like. Or none at all.
The Narrative section is a large textbox that is formattable. You can add bold, italics, images, or hyperlinks.

19. It’s rare that anyone completes this in a single sitting. If you need to exit, then get back into this area, the landing page will look different. You no longer have to click “Add a response.” Instead, click on “Response” on the left side. That will get you back into the narrative page for that question.

Note: If you’d like to change the word “Response” to something else, you can click on the little pencil next to the word Response. That will open a text box that will allow you to change the heading.

Repeat steps 16-17 until all Annual Report questions are answered.
