COURSE DESCRIPTION

Human anatomy including essential aspects of functional morphology will be covered. Topics covered may include the anatomical aspects of the integumentary, skeletal, muscular, nervous, endocrine, circulatory, lymphatic, respiratory, urinary, digestive and reproductive systems. Details of specific anatomical regions will be required.

COURSE OBJECTIVES

- 1) Understanding of the functional morphology of each human anatomical system
- 2) Understanding the interdependence of each anatomical system
- 3) Developing a deeper appreciation for the anatomical sciences through case studies and detailed exercise
- 4) Building a strong foundation for understanding and applying the concepts in careers that rely on this knowledge

Students will achieve these objectives through lectures, online quizzes/exams, and discussion board.

COURSE MATERIALS

- Textbook: Human Anatomy (9th edition) by Marieb, Brady & Mallatt (ISBN#9780135168059), Pearson
- Announcements, assignments, exams, and quizzes will be available on Canvas. Students should check Canvas regularly.
- All students **MUST** use their UNK email account to communicate with the instructor. You should check your email at least once per day.
- Respondus Lockdown Browser is **REQUIRED/MANDATORY** for all quizzes and exams! Here is the link to download: <https://download.respondus.com/lockdown/download.php?id=477439341%20>. More information is on Canvas. This will NOT work on a Chromebook or Linux computer.

EXPECTATIONS

Grades are based on participation and quality of discussion, quizzes, exams, and assignments. Students must participate online for all discussion topics. You are expected to interact with other classmates on Canvas weekly discussion board. The quality of the discussion is exhibited by the contribution of original ideas, respect for differing opinions, and evidence of knowledge on the subject matter. Students are required to maintain a professional and cordial mannerism when communicating with the instructor and other students. When you are taking an online course, it is expected that you will read all of the materials and keep up with due dates on your own. I will not be reminding you of the due dates for the course. The calendar I created has all of the course due dates and you should be sure to download it and either transfer the dates to your calendar or keep a copy to make sure you don't miss any due dates. Students are encouraged to communicate with the instructor by Zoom or email about their questions and concerns for the class contents, assignments, quizzes, and exams. I will check my email Mondays to Fridays between 9 am and 5 pm CT. I do not check email after 5 pm CT and rarely on weekends. I will respond to your emails within 24 hours.

Your response / comments will be due every Sunday of the week. Each weekly discussion will be scored out of 5 points. You will be graded not on the number of posts per week but on the **quality** of posts.

ATTENDANCE POLICY

Class attendance is different based on the mode of class delivery (face to face and online) and determined by the primary instructor. For face to face classes, regular attendance is desirable and expected. Depending on if online courses are synchronous or asynchronous dictates online class attendance/participation. If a student is absent or anticipates an absence for either class mode, the student's primary responsibility is to directly contact the primary instructor, and the student should consult with them accordingly. A student who misses a class or does not have an online presence is personally responsible for information and assignments communicated during that class session. The University-wide attendance policy will apply.
