### COURSE OBJECTIVES

- 1) to review cell structure and function in human cells
- 2) to be familiar with the terminology and concepts of histology including microscopes, tissue staining, magnification effects, and tissue preparation techniques
- 3) to learn the function and microanatomy of basic mammalian tissue types
- 4) to recognize specific tissue-level structures and cell types in the human body

### COURSE MATERIALS

- Textbook: *Atlas of Histology with Functional Correlations* (13th Edition, 2017) by Victor P. Eroschenko, ISBN 9781496316769, Wolters Kluwer
- Announcements, assignments, exams, and quizzes will be available on Canvas. Students should check Canvas regularly.
- All students **MUST** use their UNK email account to communicate with the instructor. You should check your email at least once per day.
- Respondus Lockdown Browser is **REQUIRED/MANDATORY** for all quizzes and exams! Here is the link to download: <https://download.respondus.com/lockdown/download.php?id=477439341%20>. More information is on Canvas. This will NOT work on a Chromebook or Linux computer.

### EXPECTATIONS

Grades are based on participation and quality of discussion, quizzes, exams, and assignments. Students must participate online for all discussion topics. You are expected to interact with other classmates on Canvas weekly discussion board. The quality of the discussion is exhibited by the contribution of original ideas, respect for differing opinions, and evidence of knowledge on the subject matter. Students are required to maintain a professional and cordial mannerism when communicating with the instructor and other students. When you are taking an online course, it is expected that you will read all of the materials and keep up with due dates on your own. I will not be reminding you of the due dates for the course. The calendar I created has all of the course due dates and you should be sure to download it and either transfer the dates to your calendar or keep a copy to make sure you don't miss any due dates. Students are encouraged to communicate with the instructor by email about their questions and concerns for the class contents, assignments, quizzes, and exams. I will check my email Mondays to Fridays between 9 am and 5 pm CT. I do not check email after 5 pm CT and rarely on weekends. I will respond to your emails within 24 hours.
