

Verification of Social Security Number

The social security number on your FAFSA does not match the social security number on your MyBLUE account. To continue processing your financial aid application, we must verify your correct social security number.

To verify your correct social security number:

- Please submit a copy of your signed social security card

To submit a copy of your social security card:

- To protect your identity, please **do not email** a copy of your card to our office
- The preferred way to submit documents is to log into MyBlue and use the 'Upload Documents' button on the Financial Aid page
- You may also fax, mail, or deliver a copy of your social security card in-person

Note: If you have registered for classes and the social security number on MyBLUE is incorrect, please contact the Registrar's Office at (308) 865-8527 or unkregistrar@unk.edu for further instructions.
